How to Get Rid of Eczema

An Effective Method that
Kills the Germs and
Makes New Skin.

If you bruise your hand, you will notice that a scab forms, and when it falls off, new skin has formed. Did you say so? No! Skin is the same as muscle, bone, sinew, ligament. All are made from the blood. From the materials that your stomach and intestines convert from food into what we call blood. And this blood circulates in the myriad of tiny blood vessels in the skin. Start from your stomach, where blood materials begin, and it won't be long before you are free of eczema. Use S. S. S. for a short time, and not only will eczema disappear, but the entire blood will be renewed.

There is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy, judicious selection of its own essential nutriment. That is why it regenerates the blood supply, why it has such a tremendous influence in overcoming eczema, rash, pimples, and all skin afflictions. Get a bottle of S. S. S. at any drug store, and you will not only feel bright and energetic, but you will be the picture of new life. S. S. S. is prepared only in the laboratory of The Swift Specific Co., 189 Swift Bldg., Atlanta, Ga. Beware of any attempt to sell you something "just as good."
